

## Packed with love

**We have walls, a roof, windows, and doors.  
But now we need to turn this house into a HOME.**

Help us furnish a new home for adults with disabilities in Praha - Dolní Počernice.  
Together, we will ensure that people here live with dignity, safety, and truly feel at home.

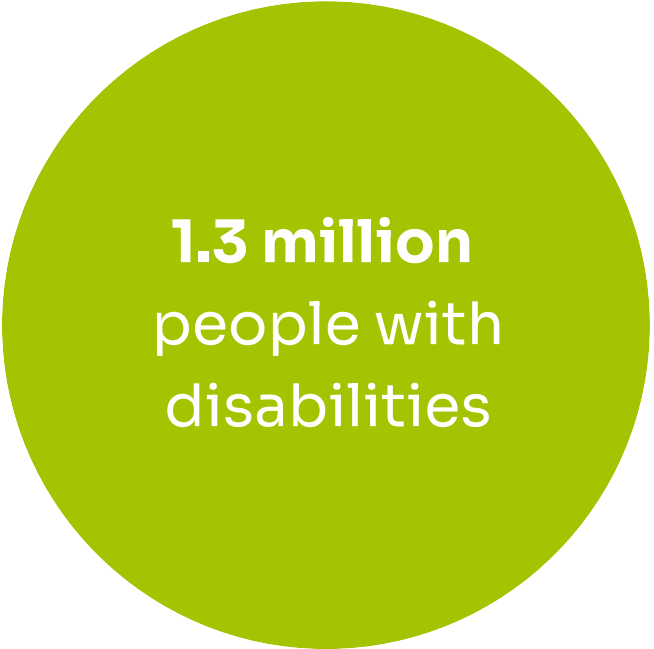

## **The problem we face**

**There are over 115,000 people with mental disabilities living in the Czech Republic.**

**Of these, 98,000 do not receive adequate care or any care at all.**

The burden of care falls on their families.  
Many are exhausted and live in fear.

**"What will happen to our son/daughter when we are no longer able to care for him/her ourselves?"**

**1.3 million**

disabilities

**What solutions do we offer  
and why do they make sense?**

**That is why we are creating HOME.**
